Overview

Professional Wet and Dry Performance

This high-performance vacuum cleaner is engineered for versatile applications, capable of handling both liquid spills and solid debris. Featuring a robust stainless steel tank construction, it is designed for durability in demanding environments like workshops, garages, and commercial spaces. Integrated HEPA filtration ensures superior air quality by capturing fine dust and allergens, while the high-capacity design minimizes downtime for emptying.

Technical Specifications

Filtration System

HEPA Filter

Tank Capacity

20L, 30L

Key Features

Core Functionalities

- Semi-automatic filter cleaning system
- Wet & Dry cleaning capability
- Blower function
- Dust full indicator
- On-board accessory storage
- Drain device for liquid disposal

Optional System Add-ons

- Speed control system
- Power tool socket function

Design

Maneuverability

Equipped with sturdy wheels and a convenient suction hose with bend attachment for easy transport.
