

# Wet Angle Grinder for Stone and Tile

This wet angle grinder is designed for cutting and grinding materials like stone, tile, and concrete. It utilizes an integrated water feed system to minimize dust and enhance cutting efficiency.

## Product Overview

### Wet Angle Grinder for Precision Stone and Tile Work

This professional-grade wet angle grinder is engineered for heavy-duty cutting and grinding on stone, tile, and concrete surfaces. Featuring an integrated water feed system, it effectively manages dust and enhances cutting precision while significantly extending the operational life of your consumables. Designed for ergonomic handling and reliable power, this tool provides consistent performance for demanding construction and masonry tasks.

## Performance Specifications

### Key Performance Indicators

**950 W**

Rated Input Power

**4900 R/Min**

Max No-Load Speed

**115 mm**

Max Disc Diameter

## Electrical Specifications

### Electrical Requirements

Parameter	Value
Rated Voltage	110/220V
Rated Frequency	60/50Hz

## Logistics

Shipping Measurements	50x35x17 Cm
