Product Overview

Professional Stone Polishing Solution

This wet stone polisher is engineered for high-performance marble and stone countertop finishing. Featuring a robust 1200W motor and an integrated water feed system, the tool effectively manages dust and keeps polishing pads cool for optimal results. Its variable speed control allows for precise handling, making it a reliable choice for professional-grade surface maintenance.

Technical Specifications

Rated Power

1200 W
Power

8 A
Current

Electrical Configuration

Parameter	Value
Voltage	230-240V / 120V
Frequency	50Hz / 60Hz

Performance Features

Variable Speed	2800 rpm
Maximum Disc Diameter	125 mm
Core Features	Water-feed system, Variable speed control, Dust reduction, Splash guard included
