

Wet Wipe Four-Side Seal Packaging Machine

This machine produces four-side sealed wet wipe packets. It enhances product appearance, differentiating it from standard market offerings.

Overview

Professional Wet Wipe Packaging Solution

This automatic four-side seal packaging machine is engineered for the efficient production of sanitary, personal care, and makeup-removing wet wipes. Designed with versatility in mind, it supports adjustable packaging sizes, making it an ideal choice for OEM and ODM manufacturing environments. The system incorporates high-quality drive and control components to ensure stable, reliable, and durable operation across diverse production requirements.
