

Wheel Loader Hinge Pin

This is a high-strength steel pin designed for use in wheel loaders. The precision-machined pin ensures accurate fit and optimal functionality within the loader's mechanical systems.

Product Overview

High-Performance Hinge Pin

This high-strength steel pin is engineered for heavy-duty construction machinery, specifically wheel loaders. Precision-machined to withstand demanding environments, it ensures secure and stable connections within mechanical systems. The component is available in both genuine and OEM versions to provide flexible maintenance solutions.

Part Number	4043000112C
-------------	-------------

Technical Specifications

Material	High-strength steel
Certifications	CE, ISO
Quality Assurance	Five-step inspection process with detailed documentation

Service & Warranty

Availability	In Stock
Warranty	6 months
Delivery	Fastest delivery time
