

Wheel Loader Thrust Washer

This thrust washer is designed for use in wheel loaders. It provides reliable performance and durability in heavy-duty applications.

Product Overview

Precision-Engineered Component

This high-performance thrust washer is designed to provide optimal durability and smooth operation within heavy-duty machinery. Precision engineered to meet strict OEM standards, it effectively reduces wear in rotating assemblies. It is compatible with a wide range of major wheel loader brands, ensuring versatile application and reliable field performance.

Identification

Part Number	0730150759
Certifications	CE, ISO

Compatibility

Supported Brands

- XCMG
- SDLG
- LIUGONG
- XGMA
- SEM

Service & Quality

Quality Control

- Five-stage inspection process
- Pre-shipment photo and video verification
- 100% compensation policy for errors or damage

Warranty Coverage	6 months for main spare parts
