

Wheeled Agricultural Tractor for Farming

This wheeled tractor is designed for agricultural tasks. It features a cabin for operator comfort and safety, along with essential components for efficient farming operations.

Overview

Versatile Farming Performance

Designed for demanding agricultural environments, this wheeled tractor combines robust construction with reliable performance. It is engineered to handle diverse terrains efficiently, ensuring maximum productivity for field operations. The enclosed cabin prioritizes operator comfort and safety during long working hours.

Technical Specifications

Drive System	4WD
Model Series	LF 80-90, 1004, 1204
Type	Wheeled Tractor

Key Features

Operator Features

Enclosed Cabin • Ergonomic Design • High Visibility

Suitable Applications

- Heavy-duty field work
- Diverse terrain navigation
- Agricultural hauling
