

White and Light Blue Running Shoe with Cushioned Midsole

This running shoe features a classic low-profile design with a durable rubber outsole for traction. The upper is constructed from synthetic leather and breathable textile materials, providing comfort and support.

Product Overview

Performance and Comfort Combined

This versatile running shoe features a classic low-profile design, expertly crafted for both athletic performance and casual daily wear. The upper combines synthetic leather with breathable textile materials to ensure optimal comfort, support, and durability. Engineered with a cushioned midsole, it offers enhanced shock absorption to protect your feet during running or training sessions.
