

White Freestanding Dishwasher Front Panel

This is a front panel designed for freestanding dishwashers. The panel is white and features electronic controls and a digital display.

Overview

Advanced Cleaning and Storage Technology

This freestanding dishwasher features a high-quality stainless steel tub designed for durability and easy maintenance. It utilizes an innovative 3.0 enhanced drying system, combining condensation, air-dry, and heated air-dry processes for superior results. With a 48-hour fresh and dry storage feature, the unit ensures dishes remain clean and dry long after the cycle ends.
