Product Overview

Premium LED Projector Shroud

This high-performance LED shroud is engineered for 3-inch projector lenses, providing a sleek, modern aesthetic upgrade for automotive lighting systems. Designed with a multilayer, cake-shaped mask, it offers exceptional heat resistance and durability, ensuring no deformation even under high-temperature conditions. The glossy, reflective surface and integrated LED optic fiber angel eyes enhance both the visual appeal and daytime visibility of vehicle headlights.

Technical Specifications

Compatibility	3.0 inch projector lens
Heat Resistance	200 °C
Manufacturing Quality	Electroplate processing, Omniseal environment, High-temperature resistant

Features

Key Features

- Multilayer cake-shaped mask design
- Glossy surface with high reflectivity
- Integrated LED optic fiber angel eyes
- Durable construction with no deformation
- DIY-friendly customization

Performance Metrics

200 °C Heat Resistance	5 hours Firing Process
