

White Nylon PU Coated Safety Gloves

These 13-gauge white nylon gloves have a white polyurethane (PU) coating. The gloves come in sizes 7, 8, 9, 10, and 11 and are suitable for applications needing dexterity and protection.

Product Overview

Precision and Dexterity

These professional-grade safety gloves feature a lightweight 13-gauge nylon liner for superior comfort and breathability during extended wear. The precision-applied polyurethane (PU) coating ensures an excellent grip while maintaining the high tactile sensitivity required for intricate tasks. Designed for versatility, they are an ideal choice for assembly, electronics handling, and light-duty industrial applications.
