

White Oil Grease for Industrial Machinery

This white oil grease is designed for use in Yamaha machinery and other industrial applications. It provides excellent lubrication and protection against wear.

Product Overview

Industrial White Oil Grease

This high-performance white oil grease is specifically engineered for precision industrial machinery. It provides reliable lubrication, protecting mechanical components against wear and corrosion in demanding environments. This product serves as an essential maintenance component for ensuring smooth operation and longevity of mechanical systems.

Compatibility

Part Number	KM5-M7122-M00
Compatible Components	Main Stopper Cylinder, Leaf Spring, Sensor Head, Piston, IO Board Head, X-axis Harness

Maintenance

Included Packing and Seals

- 90990-22J015
- 90990-22J002
- 90990-22J003
- 90990-22J006
- 90990-22J001
- 90200-01J125 O-Ring
- 90990-171J003 O-Ring
- 90990-171J008 O-Ring
- 90990-171J010 O-Ring
- 90990-171J0007 O-Ring
