

White Square Frame Exhaust Fan

This is an electrical exhaust fan designed for ventilation purposes. It features a square frame with a circular grill protecting the fan blades and includes a mounting bracket for installation.

Product Overview

High-Efficiency Ventilation Solution

This white square frame exhaust fan is designed to provide reliable air extraction for residential and commercial spaces. Featuring a durable plastic construction with a protective circular grill, it ensures optimal airflow while maintaining safety. Its compact square frame design allows for straightforward installation in bathrooms, kitchens, and other areas requiring consistent ventilation.

Physical Characteristics

Color	White
Frame Shape	Square
Material	Plastic

Installation & Usage

Mounting	Bracket Mounted
Recommended Applications	Bathroom, Kitchen, General Ventilation

Technical Specifications

Design Features

- Circular protective grill
- Integrated mounting bracket
- Aerodynamic blade design
