

White Work Gloves with Reinforced Palm

These work gloves are designed for comfort and durability. They feature a reinforced palm for enhanced grip and protection, along with a breathable mesh back to keep hands cool and dry.

Product Overview

Professional Hand Protection

These white work gloves are engineered to provide a balance of comfort and durability for demanding work environments. Featuring a reinforced palm design, they offer enhanced grip and protection where it is needed most. The addition of a breathable mesh back ensures hands stay cool and dry during extended use, while reflective accents improve safety in low-light conditions.
