Product Overview

Smart Power Control

This Wi-Fi controlled smart plug enables remote management of your electronic devices directly from your smartphone or tablet. Designed for convenience, it supports voice commands and scheduling to automate your home appliances, such as lamps, fans, and kitchen equipment. With built-in energy monitoring capabilities, it helps you track usage and optimize efficiency, making it an essential tool for modern smart home setups.

Technical Specifications

Power Supply Range	AC 100-240V
Maximum Current	10 A
Maximum Power Load	2200 W
Housing Material	Flame retardant ABS V-0

Connectivity

Wireless Standard	Wi-Fi 2.4Ghz b/g/n
Frequency Range	2.412-2.484 GHz
Security Protocols	WEP, WPA-PSK, WPA2-PSK
Encryption Types	WEP, TKIP, AES

Compatibility

Smart Home Platforms

Amazon Alexa • Google Assistant
