### Smart Ceiling Fan Control Solution

This WiFi-enabled ceiling fan remote control system provides comprehensive management of fan speed and lighting intensity. Designed for modern home integration, it allows users to operate their fans via a wall-mounted remote, handheld controller, or smartphone application. With intelligent features like dimmable lighting, multiple working modes, and broad compatibility with major smart home ecosystems, it offers both enhanced user comfort and improved energy efficiency.

## Technical Specifications

### Electrical Ratings

<b>230 V</b> Input Voltage	<b>600 W</b> Max Light Load	<b>0.5 A</b> Max Motor Current
-------------------------------	--------------------------------	-----------------------------------

### Smart Home Compatibility

Google Home, Amazon Alexa, Tmall Genie

## Features

### Smartphone App Capabilities

- Fan speed control
- Fan timer
- Light on/off and dimming
- Natural mode
- Normal mode
- Sleep mode
- Wake up mode

### Fan Speed Settings

- Speed 1 (Low)
- Speed 2 (Medium)
- Speed 3 (High)
- OFF

## Installation

### Setup Guidelines

The system includes a rectangular receiver designed for installation within the canopy of the ceiling fan. To ensure proper connectivity, the dip switch positions on both the transmitter and the receiver must be configured to match exactly.
