Product Overview

Smart Power Control Solution

This WiFi-enabled smart power socket is designed to provide seamless remote control over your electrical appliances. By integrating with your existing 2.4GHz WiFi network, it allows for convenient scheduling, timer functions, and real-time energy monitoring via a smartphone app. With built-in overload protection and support for voice control, it offers a secure and efficient way to automate your home or office environment.

Technical Specifications

Rated Current

16 A

Max Current

Operating Voltage	240 V
Network Frequency	2.4GHz WiFi
Available Plug Types	US, EU, UK

Features

Smart Capabilities

- Remote control via smartphone app
- Energy monitoring
- Schedule and timer functions
- Voice control integration
- Overload protection
