Product Overview

Advanced Air Purification System

This high-performance WiFi-enabled air purifier is designed to effectively remove allergens, smoke, and dust from indoor environments. It utilizes a comprehensive multi-stage filtration system, including a pre-filter, activated carbon, HEPA filter, and UV sterilization, to capture particles as small as 0.3 microns. Equipped with smart sensors and app connectivity, it provides real-time air quality monitoring and automated fan adjustments for a healthier living or office space.

Performance & Filtration

Filtration Stages

- Pre-filter
- Activated Carbon filter
- HEPA filter
- Negative Ion generator
- UV sterilization

Clean Air Delivery Rate (CADR)

600 m3/h

Smart Features & Control

WiFi Connectivity

Yes

Control Options

Touchscreen, Remote Control, Smartphone App

Certifications & Compliance

Verified compliance with international quality and safety standards.

Approvals & Standards

ISO 9001:2008 • CE • CB • CCC • CQC • ERP • NSF • BSCI

Commercial Terms

Frequently asked questions regarding order terms and product capabilities.

Warranty	1 Year
Minimum Order Quantity (Neutral)	100
Minimum Order Quantity (OEM)	300-500 pcs
