

Winch Mounting Plate for Vehicle Recovery

This durable winch mounting plate is designed to securely hold and stabilize winches during vehicle recovery. It is constructed from high-strength steel with a black finish for corrosion resistance and features pre-drilled holes for versatile mounting.

Product Overview

Winch Mounting Plate

This winch mounting plate is designed to provide a secure and stable foundation for vehicle recovery operations. Engineered for durability, it ensures your winch remains firmly in place during heavy-duty use. The unit features a versatile design with pre-drilled holes, making it compatible with a wide range of winch sizes and fairlead configurations.
