Product Overview

High-Performance Windshield Wiper Blade

This aerodynamic wiper blade is engineered to convert wind force into maximum windshield contact for superior clearing performance. Built with high-elasticity carbon steel, it ensures consistent pressure across the entire blade length for a streak-free view. Designed for durability, it includes a chamfer-edge end cap that protects the unit against damage from ice scrapers, making it reliable in diverse weather conditions.

Technical Specifications

Design Features

- Aerodynamic design spoiler
- Chamfer-edge end cap protection
- High elasticity frame
- Pre-installed quick-fit adapter

Key Materials

Carbon Steel, Durable Rubber

Quality and Standards

Certifications

ISO/TS 16949:2009 • ISO 9001:2008

Logistics and Delivery

Packaging Details

Packaging Unit	Quantity
Retail Box	1 piece
Inner Box	25 pieces
Master Carton	50 pieces

Estimated Lead Time

Quantity (Pieces)	Days
1 - 5000	30
5001 - 10000	40
10001 - 30000	45
