

Wine Refrigerator with Dual-Zone Temperature Control

This wine refrigerator is designed for optimal wine storage and preservation. It features dual-zone temperature control, stainless steel trim, and glass doors and can be used as a freestanding or built-in appliance.

Product Overview

Professional Wine Storage Solution

This dual-zone wine refrigerator is engineered for precision temperature management, ensuring that both red and white wines are stored at their ideal serving conditions. Designed with professional aesthetics in mind, the unit features a sophisticated stainless steel trim and elegant glass door display. Whether used as a freestanding unit or integrated into a custom cabinetry build, it offers an ideal environment for long-term preservation and immediate enjoyment.
