

Wire Brush Set with Wooden Handle

This wire brush set includes two brushes with wooden handles and metal frames. One brush features brass-colored bristles, while the other has black bristles, suitable for cleaning and surface preparation.

Product Overview

Professional Surface Preparation Set

This wire brush set features durable wooden handles and metal frames, designed for effective cleaning and surface preparation tasks. It includes two distinct brushes with varying bristle types, suitable for tackling rust, paint, and debris on metal surfaces. The ergonomic wooden handles ensure a comfortable grip during extended use, making this a reliable tool for maintenance and restoration projects.
