

Wire Rope Cutter

This wire rope cutter is designed for clean and efficient cutting. It features hardened steel jaws and high-leverage handles.

Product Overview

Professional Wire Rope Cutting Solution

These heavy-duty wire rope cutters are engineered for efficient and clean shearing of industrial-grade wire ropes. Designed for high performance, the tool features hardened steel jaws and high-leverage handles to maximize cutting power with minimal user effort. It is an essential tool for demanding environments, including construction, marine, and general industrial maintenance applications.

Technical Specifications

Ideal Applications

- Industrial Maintenance
- Construction Projects
- Marine Applications

Core Features

Hardened Steel Jaws, High-Leverage Design, Precision Cutting Edge, Ergonomic Grips

Performance

Cutting Efficiency

1 Grade

Cutting Cleanliness
