

Wire Rope Cutting Tool

This wire rope cutting tool is designed for clean and efficient cuts. It features high-leverage handles for increased cutting power and hardened steel blades for durability.

Product Overview

Professional Grade Cutting Solution

This heavy-duty wire rope cutter is engineered to deliver clean, efficient, and deformation-free cuts. Featuring high-leverage handles and hardened steel blades, it is built to withstand rigorous industrial use while minimizing wire fraying. Its ergonomic design ensures operator comfort and safety during extended professional applications.

Technical Specifications

Blade Material	Hardened Steel
Compatible Materials	Wire Rope, Cable, Rods

Performance

Design Advantages

- High-leverage handle design for increased cutting power
- Precision-ground blades for smooth finishes
- Ergonomic handle grips to reduce fatigue
- Minimized fraying to maintain wire integrity

Application

Usage Environment

Industrial Use • Professional Application
