

Wired Computer Mouse with 3 Buttons

This is a wired computer mouse with 3 buttons. It has a resolution of 800DPI and a scanning frequency of 3000FPS.

Product Overview

Reliable Wired Connectivity

This wired computer mouse is designed for consistent performance in office and general computing environments. It features a standard 3-button layout and a responsive 800 DPI sensor, ensuring reliable navigation. Built for durability, the switches are rated for extensive use, making it a practical choice for daily professional tasks.

Performance Metrics

Resolution	800 DPI
Scanning Frequency	3000 FPS

Technical Specifications

Number of Buttons	3
Operating Voltage	5 V
Internal Chipset	Sigma 8610/12085+84511

Durability & Ergonomics

Touch Pressure Switch	70-80G
Key Life	2000000 clicks
