

Wired Dynamic Microphone for KTV and Vocal Performance

This dynamic wired microphone is designed for professional KTV and vocal applications. It features a large cartridge and cannon cable for quality sound reproduction.

Product Overview

Professional Vocal Performance Microphone

The PT-777 is a professional-grade dynamic microphone engineered for KTV, live shows, and vocal performances. Its robust zinc alloy body and heat-treated brazing mesh provide exceptional durability and climate resistance. With a specialized frequency response designed to deliver powerful bass and clear treble, this microphone ensures high-quality sound reinforcement for both stage and home entertainment.

Technical Specifications

Microphone Type	Dynamic
Polar Pattern	Hyper Cardioid
Frequency Response	100Hz - 10KHz
Impedance	370 Ω
Sensitivity	-50dB \pm 3dB

Physical Attributes

Net Weight	47 g
Construction Materials	Zinc Alloy Body, Brazing Metal Net

Features

Advanced Capabilities

- Magnetic reed mute switch
- Twin-cord sheltered wire for interference rejection
- Abrasion-resistant paint finish
- High climate resistance stability

Applications

Recommended Use Cases

KTV • Live Shows • Family Entertainment • Outdoor Activities • Program Hosting
