

Wired Dynamic Microphone with Metal Plating

This is a wired microphone with a metal-plated finish. It has an on/off switch and is suitable for recording vocals, instruments, and public speaking.

Product Overview

Professional Performance Audio

The PT-711 is a robust dynamic wired microphone designed for professional and casual applications including live shows, public speaking, and KTV. Constructed with a durable zinc alloy body and a heat-treated brazing metal mesh, this microphone offers exceptional protection and long-term reliability. Its high-quality cartridge delivers a balanced sound profile, featuring thick, powerful bass and clear, soft trebles for enhanced vocal clarity.
