

Wired Dynamic Microphone

This wired microphone is designed for clear and accurate audio capture. It has a dynamic capsule with a cardioid polar pattern to minimize background noise and feedback.

Overview

Professional Dynamic Microphone

The LM-510 is a professional-grade wired microphone engineered for precise and accurate audio capture. Designed with a robust construction, it offers the durability required for demanding environments like vocal performances, public speaking, and recording sessions. Its cardioid polar pattern effectively minimizes background noise and feedback, ensuring high-quality sound reproduction.

Technical Specifications

Transducer Type	Dynamic
Polar Pattern	Cardioid
Connectivity	Wired

Features

Integrated Controls

- On/Off Switch

Key Attributes

Professional Grade, Feedback Reduction, Durable Construction
