

Wired Keyboard and Optical Mouse Combo

This is a standard wired keyboard and optical mouse combination. It features a full QWERTY layout and provides smooth, accurate tracking.

Product Overview

Reliable Desktop Essentials

This wired keyboard and optical mouse combo offers a dependable solution for everyday computing needs in home or office environments. The keyboard features a full QWERTY layout with a dedicated numeric keypad for efficient data entry, while the optical mouse ensures smooth and accurate tracking across various surfaces. Designed for simplicity and reliability, both devices utilize a straightforward USB connection for plug-and-play functionality.
