

Wired Wooden Computer Mouse

This computer mouse features a standard two-button design and a scroll wheel. Connectivity is via a wired USB connection, making it suitable for use with desktop and laptop computers.

Product Overview

Natural Elegance Meets Functionality

This wired wooden computer mouse combines a sophisticated natural wood grain finish with reliable ergonomic performance. Designed for seamless compatibility with both desktop and laptop systems, it provides a tactile experience that stands out in any office environment. The standard two-button configuration and integrated scroll wheel ensure intuitive navigation for daily professional tasks.
