

Wireless Computer Keyboard with USB Dongle

This is a standard computer keyboard with a full QWERTY layout and a numeric keypad. It connects wirelessly via a small USB dongle.

Product Overview

Reliable Wireless Productivity

This full-sized wireless keyboard offers a clean, low-profile design ideal for professional office environments. Featuring a complete QWERTY layout with a dedicated numeric keypad, it ensures efficient data entry and comfortable typing. The included USB dongle provides a seamless wireless connection, eliminating cable clutter on your workspace.
