

# Wireless Conference Microphone System with 20-Hour Battery

This wireless conference microphone system is designed for professional audio capture in meeting environments. It features a long-lasting 20-hour battery life for extended conferences.

## ADDITIONAL IMAGES

## Overview

Sleek and professional design suitable for boardrooms and huddle rooms.

### Professional Wireless Conference Solution

This wireless conference microphone system is engineered for professional audio capture in meeting rooms ranging from 30 to 100 square meters. It features a flexible gooseneck design for optimal positioning and provides reliable, clear voice transmission with strong anti-interference capabilities. Designed for extended use, the system supports up to 20 hours of continuous operation on a single charge, making it ideal for long board meetings and conferences.

## Performance Metrics

### Continuous Battery Life

**20 hours**

Operating Time

### Recommended Room Size

30-100 Square Meters

## Key Features

The base unit features intuitive controls and flexible gooseneck microphone placement.

### Core Functionality

- Chairman priority interrupt
- Voice-activated switch (VOX)
- One-click system shutdown
- Strong anti-interference technology
- Removable microphone stem for storage

### Available Speech Modes

VOX, AUTO, FIFO

## Compliance & Quality

Easy-to-install wireless components designed for quick setup in professional environments.

### International Certifications

IEC 60914 • CE • ISO

## Application Scenarios

### Supported Table Layouts

- Rectangular Table
- U-Shaped Table
