

# Wireless Home Speaker with NXT Technology

This wireless speaker is equipped with three 20 W flat-panel speakers. It also features a 6.5" 40 W woofer.

## Overview

### High-Performance Wireless Audio

This wireless home speaker combines advanced audio technology with a sleek, minimalist design, making it an ideal statement piece for modern living spaces. It utilizes specialized flat-panel technology to deliver 360-degree sound projection, ensuring consistent audio quality from any listening position. With seamless streaming capabilities and intuitive touch-sensitive controls, this speaker offers both sophisticated aesthetics and high-fidelity performance.
