

Wireless Optical Mouse with USB Receiver

This wireless optical mouse offers reliable performance and comfortable use. It features a high-precision optical sensor for accurate tracking on various surfaces.

Overview

Reliable Wireless Performance

This wireless optical mouse is designed for professional environments, offering reliable performance and high-precision tracking on a variety of surfaces. Its ergonomic shape ensures comfort during extended use, while the 2.4GHz USB receiver guarantees a stable, cable-free connection. With simple plug-and-play installation, it is ready to use immediately across both Windows and macOS systems.
