

Wireless Over-Ear Noise-Isolating Headphones

These wireless headphones feature an over-ear design and comfortable headband. They are suitable for both audio listening and communication, with noise isolation technology.

Product Overview

Professional Wireless Audio Solution

These over-ear wireless headphones are engineered for both high-fidelity audio listening and clear communication. Featuring advanced noise-isolation technology, they effectively minimize ambient distractions, making them an ideal choice for professional environments. The design includes a comfortable headband for extended wear and comes with a dedicated charging dock for convenient power management.
