

Wireless Towing Light Kit with Magnetic Base

This wireless towing light kit features DOT-approved LED lights with magnetic bases. The kit includes a transmitter and two light units, providing essential brake, turn signal, and tail light functions.

Product Overview

Wireless Towing Light Kit

This wireless towing light kit is designed for efficient and safe towing applications, featuring DOT-approved LED lights for regulatory compliance. Equipped with strong magnetic bases, the units allow for quick and tool-free attachment to various vehicles, trailers, or equipment. The system includes a wireless transmitter and two light units, supporting essential brake, turn signal, and tail light functions with a reliable wireless range of up to 100 feet.
