

Women's Step-Through Frame Roadster Bicycle

This step-through frame roadster bicycle is designed specifically for women. It features full fenders, a chain guard, a rear rack, and a sprung saddle for comfortable urban commuting and leisurely rides.

Product Overview

Classic Roadster Design

This traditional women's roadster bicycle features a convenient step-through frame, allowing for easy mounting and dismounting. Designed for urban commuting and leisurely rides, it offers an upright and relaxed riding position. With its durable steel construction and full range of included accessories, it provides a reliable and clean transport solution for daily use.
