

Wood and Glass Interior Door

This interior door features a wooden frame and glass panels. It allows light to filter through while maintaining privacy within a residential space.

Product Overview

Sophisticated Interior Design Solution

This premium interior door blends a rich wooden finish with strategically placed rectangular glass panels to create an elegant aesthetic. Designed for modern living spaces, it allows natural light to filter through between rooms while maintaining essential privacy. Its robust construction ensures both long-lasting durability and a seamless integration into various interior design styles.
