

Wood Base Mouse Trap with Spring Bar

This is a traditional wood-based mouse trap with a spring-loaded metal kill bar. It features a sensitive trigger mechanism for effective and rapid capture of mice.

Product Overview

Effective Pest Control Solution

This traditional wood-based mouse trap is designed for reliable and effective pest control. Featuring a sensitive trigger mechanism and a spring-loaded metal kill bar, the device is engineered for quick capture performance. Its simple design ensures it is easy to set and dispose of, providing a convenient solution for maintaining a pest-free environment.

Technical Specifications

Base Material	Wood
Mechanism Type	Spring-loaded metal kill bar
Component Coating	Corrosion-resistant finish

Usage and Handling

Key Features	Sensitive Trigger, Easy Set, Disposable, Corrosion Resistant
