

Wood Interior Door with Vertical Panel Design

This interior door is crafted from wood and features a sleek, modern design. A vertical panel arrangement on one side adds visual interest and architectural detail.

Product Overview

Modern Vertical Panel Interior Door

This contemporary interior door is crafted from high-quality wood, designed to bring a sleek and modern aesthetic to any interior space. Featuring a distinct vertical panel arrangement, it adds sophisticated architectural detail while maintaining a versatile look suitable for both residential and commercial environments. Engineered for standard door frames, it provides essential privacy and effective sound insulation for modern living or professional offices.
