Overview

Precision Woodworking Mortiser

This professional-grade mortising machine is engineered for high-precision joinery in woodworking applications. It features a robust construction with an improved table-moving structure for smooth, accurate performance, complemented by a digital readout for precise movement control. Designed with efficiency in mind, the unit includes a convenient integrated tools cabinet and a detachable stand to optimize workspace and shipping logistics.

Technical Specifications

Motor Power	2200 W
Motor Speed	2850 /min
Voltage/Frequency Options	3 x 400V, 3 x 230V, 1 x 230V, 50Hz, 60Hz

Performance Metrics

Key Performance Metrics

16 mm

Max Tool Diameter

140 mm

Max Mortising Height

Table Dimensions

Table Specifications

Dimension	Value	Unit
Table Size	500	500 x 207 mm
Longitudinal Travel	309	mm
Cross Travel	150	mm

Logistics & Build

Weight (Net/Gross)	100 / 117 kg
Packing Dimensions	1060 x 550 x 550 mm
Units per 20ft Container	80

Features

Key Features

- Improved table-moving structure for smooth, precise performance
- Detachable stand for space-saving packaging
- Digital readout for precise table movement tracking
- Integrated tools cabinet for organized storage
