

Wood Planing Machinery with Dust Collection

This heavy-duty woodworking machinery is designed for precision planing and shaping of wood. It features a robust frame, adjustable cutting height, and integrated dust collection.

Product Overview

Professional Wood Planing Solution

This heavy-duty woodworking machine is engineered for high-precision planing and shaping tasks. It features a robust, stable frame designed for industrial reliability and includes an integrated dust collection system to maintain a clean workspace. With intuitive handwheel adjustments and a centralized control panel, it offers professional-grade performance for demanding woodwork applications.

Technical Specifications

Dust Collection	Yes
Fine Adjustment Mechanism	Manual handwheel
Build Quality	Heavy-duty, Robust frame

Operational Features

Intended Use

Professional Woodworking • Precision Planing • Shaping

Control System

Centralized operation panel
