

Wood Router Bit Set for Decorative Edge Profiling

This 3-piece wood router bit set is designed for creating decorative edges and profiles in woodworking projects. The set includes various bit shapes, such as cove, roundover, and ogee, allowing for versatile edge designs.

Product Overview

Professional Edge Profiling

This 3-piece wood router bit set is engineered for creating precise, decorative edges and profiles in woodworking projects. Featuring carbide cutting edges, the bits ensure long-lasting durability and clean cuts for both professional woodworkers and hobbyists. The set includes essential profiles such as cove, roundover, and ogee, providing versatility for various decorative applications.
