

Wooden Monitor Riser Stand

This monitor riser stand is designed to elevate computer monitors for improved ergonomics and viewing comfort. Constructed from durable wood, it provides a stable and stylish platform while creating additional storage space.

Product Overview

Ergonomic Workspace Solution

The ZS07-50 monitor riser stand is designed to elevate your display to a comfortable eye level, significantly reducing neck and eye strain during long hours of work. Crafted from durable wood, it combines a sleek, minimalist aesthetic with robust construction to ensure long-term stability in any professional office environment. The elevated design not only improves ergonomics but also maximizes desk real estate by providing integrated storage space beneath the platform.
