

# Woodworking Bar Clamp with Cast Iron Jaws

This woodworking clamp features a robust metal bar and cast iron jaws. It is designed for secure and precise clamping of wood pieces during assembly, gluing, or finishing processes.

## Product Overview

### Professional Woodworking Clamp

This high-quality bar clamp is designed for precision woodworking and assembly tasks. It features robust cast iron jaws and a sturdy metal bar to ensure maximum clamping force and stability. The ergonomic wooden handle provides a comfortable grip, making it ideal for gluing, finishing, and secure holding of wood components during construction.

## Technical Specifications

Jaw Material	Cast Iron
Handle Material	Wood
Build Type	Heavy Duty, Industrial Grade

## Usage

### Primary Applications

- Woodworking assembly
- Glue-up processes
- Finishing work
- Securing wood pieces
