

Woodworking Spindle Moulder

The Woodworking Spindle Moulder is a versatile machine designed for shaping and profiling wood. It features a robust construction with a cast iron table and fence system for stability and precision.

Product Overview

Professional Grade Woodworking Spindle Moulder

This versatile spindle moulder is engineered for precise shaping and profiling tasks in professional woodworking environments. Built with a heavy-duty cast iron table and a rigid fence system, it ensures maximum stability and operational accuracy. It is equipped with essential safety features including a spindle guard and an easily accessible emergency stop button for secure daily use.

Performance Metrics

Available Spindle Speeds

- 3000
- 4500
- 6000
- 8000
