

# Woven Measuring Tape with Bakelite Case

This measuring tape features a woven tape for accurate measurements. The tape is housed in a robust bakelite case, offering protection and extending its lifespan.

## Product Overview

### Professional Woven Measuring Tape

This high-quality measuring tape features a robust Bakelite case designed for superior durability and impact resistance. Engineered for longevity, the woven tape material ensures consistent accuracy for demanding surveying, construction, and general measurement tasks. The smooth winding mechanism and integrated locking feature allow for precise operation in both indoor and outdoor environments.

## Technical Specifications

Tape Length	30 m
Case Material	Bakelite
Tape Material	Woven

## Key Features

### Operational Mechanisms

- Smooth winding mechanism
- Integrated locking mechanism
- Retractable design

### Durability Highlights

Impact Resistant, Long Life, Robust Construction
