

Wraparound Safety Goggles with Tinted Lenses

Protective eyewear with a wraparound design and gray tinted lenses offers impact resistance and UV protection. The durable black plastic frame is accented with orange on the nose pads and temple tips for comfort and a secure fit.

Product Overview

Professional Wraparound Safety Eyewear

These high-performance safety goggles feature durable polycarbonate lenses designed to provide superior impact resistance in demanding work environments. The integrated wraparound design ensures comprehensive eye coverage, while the tinted lens coating offers essential UV protection for outdoor or high-glare settings. Engineered for long-term comfort, the frame includes ergonomic accents to ensure a secure and stable fit during extended use.

Standards & Compliance

Safety Certifications
