

XG932b Wheel Loader

This wheel loader is designed for heavy-duty material handling. It features a powerful engine delivering high torque and efficient performance.

Overview

Built for Heavy-Duty Performance

The XG932b wheel loader is a robust and versatile machine engineered for demanding material handling applications in construction, mining, and agriculture. It features a powerful high-torque engine and a large-capacity bucket designed to maximize operational productivity. The unit is built with a reinforced chassis and articulated steering to ensure structural integrity and superior maneuverability in tough working environments.

Key Performance Metrics

Performance Highlights

3 b

Series Designation

Technical Features

Drive and Steering

- Hydraulic transmission system
- Articulated steering for enhanced maneuverability
- Reinforced heavy-duty chassis

Best Suited For

Construction, Mining, Agriculture

Operator Experience

Operator Station

Ergonomic Design • High Safety Standards • Operator Comfort
