

YAMAHA SMT Placement Machine Nozzle Shaft

This is a nozzle shaft designed for use in YAMAHA SMT placement machines. It is compatible with YVL88 models.

Product Overview

Precision Nozzle Shaft Components

These original, high-quality replacement parts are engineered for optimized performance in SMT placement machines. This selection includes essential maintenance components such as spline head assemblies, motors, and nozzle holders, ensuring precision and reliability in your assembly line. Every component is designed to maintain consistent pick-and-place accuracy in demanding production environments.

Key Components List

Available Parts

- KH5-M7182-C0X Filter
- 90990-17J006 O-Ring
- KH5-M7116-00X Belt (Head 1)
- KG7-M7116-00X Belt (Head 2)
- KH5-M7130-00X Spline Head Assy 1
- KH5-M7140-00X Spline Head Assy 2
- KG7-M7151-00X Sensor 1
- KG7-M7152-00X Sensor 2
- KG7-M7173-A0X Holder Nozzle Comp
- 90K55-4W034A/B/C/D Motor Assy
- KM0-M665A-10X Sensor 1-1
- KG7-M7137-A0X Leaf Spring
- KM0-M711A-30X Floating Nozzle
- KM0-M711B-02X Nozzle B Comp
